NAUTIZ X1 BUILT TO SURVIVE

The Nautiz X1® is an ultra-rugged handheld that breaks through barriers of size, toughness and reliability. With its slim size and light weight it's in a class with popular smartphones — but with unmatched ruggedness.

The Nautiz X1 is IP67-rated and meets stringent MIL-STD-810G military standards for withstanding humidity, drops and extreme temperatures. It is fully dust-tight and waterproof. The 4-inch capacitive touchscreen is sunlight-readable and scratch-resistant.

This rugged handheld provides u-blox® GPS, connects to 802.11 b/g/n WLAN networks and provides reliable voice and high-speed data transmission worldwide over GSM networks.

NAUTIZ X3 POCKET-SIZED POWERHOUSE

The Nautiz X3® takes the concept of “rugged and mobile” to a new level, measuring just 150x67x2 mm and weighing only 260 grams. The IP65-rated Nautiz X3 features a high-speed 806 MHz XScale processor, 256 MB of SDRAM and 512 MB of Flash storage. It has a 3300 mAh Li-Ion battery and runs Windows Mobile 6.5.

Beyond being small, powerful and rugged, the Nautiz X3 has integrated 3G cellular capability a 3-megapixel camera, a 1D laser barcode scanner or an optional 2D imager. The Nautiz X3 even includes GPS for navigation, plus a g-sensor, an e-compass and an altimeter.

or Android

NAUTIZ X4 WORK-READY, FIELD-TOUGH

Merging ultimate mobility with true field functionality, the Nautiz X4® rugged handheld is a durable tool designed with fieldwork in mind — it's packed with features, it's compact and truly portable, and it offers a reliable computing solution for challenging worksite environments.

The feature-rich Nautiz X4 runs either Windows Embedded Handheld 6.5 or Android 4.2 for ultimate versatility.

A valuable tool for warehousing, logistics, field service, security, public safety and similar sectors, the Nautiz X4 rugged handheld has multiple connectivity options such as high-powered 3G and WLAN to keep you connected, everywhere and always.

NAUTIZ X5 PACKED WITH PERFORMANCE

The Nautiz X5® PDA combines impressive performance with a small, rugged package. It includes a powerful 806 MHz XScale processor and a full VGA sunlight-viewable screen, plus BT and 802.11 b/g WLAN capability with WPA2 encryption and CCX certification. The Nautiz X5 has optional GSM/UMTS voice and high speed HSDPA data connectivity with lightning fast 3G communication, a 1-D laser scanner or 2-D imager and GPS with SiRF Instant Fix II capability that provides position computation in seconds.

NAUTIZ eTicket Pro RUGGED, POWERFUL, FULL-FEATURED

The versatile Nautiz eTicket Pro® is designed for validations and fare collection in public transportation. The built-in smart card reader supports various ISO1443 type A/B RFID devices. The contactless electronic link between the card and the reader allows for the fast interface that is needed in security and payment systems. The Nautiz eTicket Pro also has 3 SAM sockets, camera, 2-D imager, 3G connectivity, GPS, BT and WLAN functionality.

NEW!

NAUTIZ X8 LEADING THE WAY

The Nautiz X8® ultra-rugged handheld features a high-speed dual-core processor and a battery that lasts up to 12 hours on a single charge. A choice of operating systems — Windows Embedded Handheld 6.5.3 or Android 4.2.2 — allows you to choose the most suitable platform.

Each detail of the Nautiz X8 is meticulously designed for field use. Its 4.7-inch high-brightness screen is the largest in its class, and you can operate the capacitive touchscreen using multi-finger gestures — the same way you use your personal smart devices.

NAUTIZ eTicket Pro II MOBILE TICKETING MADE EASY

A smart choice for electronic fare collection and ticket validation, the Nautiz eTicket Pro II® merges ultimate mobility with true field functionality. This rugged handheld is a reliable and efficient tool for transactions and validations, designed specifically with transit workers in mind — it's packed with features, it's compact and truly portable, and it offers a reliable computing solution for challenging worksite environments.

The built-in Arcontia smart card reader makes the Nautiz eTicket Pro II an extremely fast and accurate tool for contactless payment data collection.
